Vision: To become an eminent institution through knowledge and research

## Institutional Distinctive Approach for Rural Students

### Vision

To become an eminent institution through knowledge and research.

### Mission

- To produce world class engineers with academic and moral excellence who are not only equipped with cutting edge technology skills but also possess immense sense of social responsibility.
- To inculcate awareness and acceptance of ethical values through co-curricular activities for overall development of students.

### Institutional Priorities:

- Excellence in academics
- Faculty Development
- Placements
- Imparting quality education to economically backward students.
- Ethical value social, professional responsibility.
- To create an exposure in developing the competencies of the students in order to prepare them to face the challenges of the changing world.

The Vision of the Institute focuses on two aspects essentially: knowledge and research. The Institute has established its distinctive approach towards this broad Vision by imparting providing guidance, support, training, skill development through various activities conducted by different department to the budding rural students.

1. Disha – This is an initiative taken by the Department of Computer Science Engineering for the rural students. The purpose of this activity is encompassing all the children of nearby rural areas to provide free knowledge about computer its application like paint, web browsing, internet in day to day life . Many students from villages Bailwada, Babulkheda, khapri, lonara and gumthada.
2. Aakriti-Enlightening Young minds is a welfare initiative by the Department of Electronics Telecommunication Engineering to serve the rural society through activities like workshops, awareness campaign, etc.
3. Urja Abhiyan-Department of Electrical Engineering took an initiative for Electrical safety and protection awareness through “Urja Abhiyan” drive for rural areas. In this drive, students and
